DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by DeBergalis cited on applicant's IDS.

In the amendment filed November 30, 2000 applicant deletes formula I directed to the monomer, however, upon further consideration of the polymer, formula II, the rejection over DeBergalis is maintained because the polymer of formula II reads on the monomer when n,p,q, and m are zero and o is greater than zero. When o is 1 the polymer is the monomer.

3. Claims 2-27 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The claims read on more than the polymer as the range is 5 to 50,000.
